

FOAM PLUG A & B

Foam Plug A&B is a two-component low density rigid foams which is a lost circulation material for plugging application.

Advantages

- Cost-effective lost circulation material
- Easy to use
- Fast reaction

Application/Function

- Used for plugging cavities in thief zones
- Stabilize loose unconsolidated surface formations
- Application for cementing in and sealing collar pipe

Recommended Treatment

Foam Plug A&B are measured and mixed in equal amounts by volume. The mixture is poured into a container, then mix and expand many times original volume and develop a uniform cell structure, then developing handling strength and full cure.
