

# Drilling Foam Plus

Foam PLUS is a upgraded concentrated premium anionic surfactants which has been formulated for use in the oil & gas, mineral and water well drilling engineering.

## Advantages:

- Environmentally friendly and biodegradable, it does not pollute
- Generates instant high foam quality of exceptional stability
- Economical, produces stable foam at low concentrations
- Compatible with all types of makeup water including brackish, salty and hard water
- Improves hole cleaning and increases penetration rates

## Recommended Treatment:

Mix slowly through a jet mixer or sift slowly into the vortex of a high-speed stirrer.

Air drilling: 0.1-0.2%

Mist Drilling: 1.0%-2.0%

Stiff foam drilling: Mix CHP, 0.1-0.2% as foam stabilizer or CX TROL, 0.2-0.4%,

Foam Plus 1.0-1.5%
