HOSE CLAMPS

Since 1976 Tridon Australia has been at the forefront of hose clamp technology. With a comprehensive range and proven quality and reliability, Tridon clamps are second to none.

All Tridon hose clamps are manufactured to stringent TS16949 / ISO9001 accredited quality standards and include a complete range of solid and perforated band worm drive clamps, heavy duty T-Bolt clamps and a range of specialty clamps suitable for automotive, industrial, marine or general purpose use.

MH/HS Series Part Stainless Steel, Perforated Band

- Superior design, proven reliability, trusted brand
- For automotive and general purpose use
- 301 stainless steel band
- Built to SAE J1508 Standard
- Hexagonal head with screwdriver slot
- Used in OE applications
- Low free torque for ease of installation
- Flexible band for superior sealing, conforms to hose
- High strength for reliable sealing
- Made in Australia

MAH/HAS Series

All Stainless Steel, Perforated Band

- For marine, industrial, automotive, agricultural, chemical and general purpose use
- All stainless steel for corrosion protection
- Built to SAE J1508 Standard
- Hexagonal head with screwdriver slot
- Low free torque for ease of installation
- Used in OE applications
- Flexible band for superior sealing, conforms to hose
- High strength for reliable sealing
- Made in Australia

Part No. HAS006 - HAS270

SMH/SHS Series

Part Stainless Steel, Solid Band

Series SHS (Regular Clamp)
Band 430 Stainless Steel
Housing 430 Stainless Steel
Screw Carbon Steel Zinc Plated

- Australian industry standard sizing and part numbers
- Heavy duty, non perforated band
- For automotive and general purpose use
- 430 Stainless steel band and housing
- Rolled edge and underside to prevent hose damage
- Technically advanced design for superior sealing

MP Series (Multi-Purpose)

Part Stainless Steel, Solid Band

Series MP (Micro Clamp)
Band 430 Stainless Steel
Housing 430 Stainless Steel
Screw Carbon Steel Zinc Plated

- For industrial, hardware, automotive and general purpose use
- 430 stainless steel band
- Heavy duty, non-perforated band and housing
- Available with removable safety collar to prevent screwdriver slip injuries
- Rolled edge and smooth underside to prevent hose damage
- Technically advanced design improves sealing capability

TTBU Series

T-Bolt Ultimate Clamps

Series TTBU
Band 430 Stainless Steel
Bridge 430 Stainless Steel
Bolt High Tensile Carbon Steel Zinc Plated
Trunion Carbon Steel Zinc Plated
Collar Carbon Steel Zinc Plated

- For performance automotive and general applications including turbo charging, intercooler, air intake, radiator and exhaust pipes
- Band size ideal for performance automotive applications
- Clamps individually packed in popular sizes
- 430 stainless steel band and bridge, carbon steel, zinc plated bolt, trunnions and collar
- Easy installation - a bolt is used for tightening not a nut which ensures full travel when using a socket
- Made in Australia

TTBY Series (T-Bolt)

Part Stainless Steel, Solid Band

Series TTBY (T-Bolt Clamp)

Band 430 Stainless Steel

Bridge 430 Stainless Steel

Bolt High Tensile Carbon Steel
Zinc Plated

Trunnion Carbon Steel Zinc Plated

Collar Carbon Steel Zinc Plated

- For heavy duty applications where large tightening forces are required
- 430 stainless steel band and bridge - carbon steel, zinc plated bolt, trunnions and collar
- Rolled edge to prevent hose damage
- Easy installation - a bolt is used for tightening not a nut which ensures full travel when using a socket
- Extra solid construction with the highest grade materials and 3 welds per band on larger sizes
- Solid trunnions with hex head bolt
- Superior sealing - tighter seals at lower bolt torques
- Made in Australia

TEC Series Double Ear Clamps

How to use a Double Ear Clamp

One ear should be closed all the way. When the second ear is closed, the first ear will open slightly. This creates a spring-like action which holds against pressure, vibration and hose shrinking caused by temperature changes or ageing.

- A simple and economical solution for many difficult tightening and sealing problems
- Zinc plated steel
- Disturbing clasps, screws and band ends can be avoided by mounting an ear clamp
- Mounting and dismounting is simple, the ear clamp is easily passed over the material that is to be mounted and is then squeezed together by top joint pincers
- Suitable for use on compressed air, gas and liquid lines

Ezi-Load Merchandisers

- Display, organise and dispense popular MH/HS or MAH/HAS Series perforated hose clamps
- Each merchandiser contains a range of 300 popular hose clamps in full stainless steel or part stainless steel
- Durable metal frame provides easy storage for refill boxes
- Easy to position as a wall-mounted or freestanding unit
- Gravity fed box design allows for easy access of hose clamps
- Re-order part number clearly marked on perforated tear-off strip
- Holds two boxes of each part number to manage stock levels
- Easy to refill when merchandiser needs replenishing
- Compact in size - only 310mm (w) x 760mm (h) x 200mm (d)
